- The new Pool stretches from 3.5 feet deep in the large shallow end to 6 feet deep in its deepest parts

- Lap swimming will occur most often across the pool. The goal is to accommadate all who wish to use the pool in various ways. We are making every effort to keep two lap lanes open as much as possible. See the Lap Pool schedule for more lap swimming availability.

- The pool is 55 feet wide, a regulation pool is 75 feet in length. 22 lengths across the pool will be a 1/4 mile.

- The last 6 foot section will be open for deep water exercise and recreational swimming with the exception of scheduled deep water exercise classes.

- To help share when the shallow end space is available, we have provided you with a diagram splitting the pool into four quadrants. Use the schedule below to see areas shaded in blue showing when each quadrant is available. An area shaded in grey indicates a swim lesson, water exercise class or that the pool is closed.

- The pool temperature will be kept between 86 and 87 degrees
