TTA is Weymouth Club's premier training program for established tournament players, many with aspirations to compete at the collegiate level. Athletes train alongside other driven players in a high-energy environment built around hard work, healthy competition, and the camaraderie that develops through working toward shared goals. Our coaches provide individualized feedback and purposeful training to develop each player technically, tactically, mentally and physically. We believe in developing the person behind the player, building character and integrity that carry both on and off the court. Placement may be guided by UTR and USTA ratings so that players train at the level that will best support their progression. At this level, regular tournament play is expected and many TTA athletes choose to complement their program with private lessons. **2 or 3 days per week | 2-day minimum.**
